	User story								Reuse statement				Update UML	
Books							merge						Release Planning Update	
US 01.01.01	add book			Puyuan										
US 01.02.01	scan book					Puyuan							test code and debug	
US 01.03.01	status of book			Puyuan									test wow feature	
US 01.04.01	list of books			Puyuan										
US 01.05.01	filtered by status					Puyuan								
US 01.06.01	edit book			Puyuan										
US 01.07.01	delete book			Puyuan				merged	done	done	done	done		
User profile														
US 02.01.01	username+ info			Bo				merge by 3.7						
US 02.02.01	edit info					Bo								
US 02.03.01	show profile			Bo					done	done	done	done		
Searching														
US 03.01.01	kwds available							merge by 3.7						
US 03.02.01	kwds not available			Yang(status exclusive)					done	done	done	done		
Requesting														
US 04.01.01	borrower request available books			Yang + Yifei				merge by 3.7						
US 04.02.01	borrower view requested			Yang + Yifei										
US 04.03.01	owner notified request			Yang + Yifei										
US 04.04.01	owner view requests			Yang + Yifei										
Accepting														
US 05.01.01	owner accept request													
US 05.02.01	owner decline request													
US 05.03.01	borrower notified accepted request													
US 05.04.01	borrower view list of accepted books			Yang(only basic interface)		Add some details			done	done	done	done		
Borrowing							Merge with book							
US 06.01.01	owner hand over a book													
US 06.02.01	borrower accept a book													
US 06.03.01	borrower view list of borrowed books			Yang + Yifei(only basic interface)										
Returning														
US 07.02.01	borrower hand over a book													
US 07.03.01	owner receive a returned book							merged	done	done	done	done		
Photographs								merge by 3.10						
US 08.01.01	owner attach photo to a book													
US 08.02.01	owner delete photo to a book													
US 08.03.01	owner/borrower view attached photos								done	done	done	done		
Location														
US 09.01.01	owner specify a geo location							merge by 3.10						
US 09.02.01	borrower view location of book borrowed													
Wow_1									done	done	done	done		
US 10.01.01	borrower write comments of books borrowed									start	continue			
US 10.02.01	owner/borrower view comments											merge		
Wow_2														
US 11.01.01	borrower see recommended books									start	continue	merge		
		Comment			When project#3 due				When project#4 due	debug and fix code	debug	merge wow		
					Code witten in seperate branches				Project can run	Start Wow	continuie wow	testing		
					but has unit test in each branches				with small bugs					
					Draw UML to link				update unit test
